

TUSCARAWAS COUNTY HEALTH DEPARTMENT

APPENDIX 6 TO THE ERP -
TUSCARAWAS COUNTY CMIST
PROFILE

Commented [NY1]: ERP - 21

DOCUMENT DESCRIPTION

This appendix includes the Tuscarawas County CMIST Profile. By understanding the prevalent demographics of the county, TCHD may better assess and recommend measures to ensure health security for all county residents. Together with local, state, federal and non-profit partners, TCHD has planned to respond to the whole community during an incident by identifying the services and the modes of coordination necessary to serve all county residents before, during and after an event.

TUSCARAWAS COUNTY CMIST PROFILE

Tuscarawas County Health Department recognizes that a part of the county’s population may have diverse needs, especially during an emergency. As such, TCHD ensures the inclusion of all county residents by utilizing the CMIST framework to address access and functional needs. The CMIST framework defines the components of access and functional needs: Communication, Maintaining Health, Independence (the goal), Services and Support, and Transportation.

The CMIST components are further defined below:

- **Communication** – Refers to limitations in both receiving and providing information [e.g., only speaking a language other than English, not being able to read or write (well), or being unable to speak].
- **Maintaining Health** – Refers to needs associated with managing health conditions that require observation or ongoing treatment (e.g., requiring dialysis or administered oxygen, needing IV therapy or tube feeding, relying on power-dependent equipment to sustain life, or needing medication to maintain optimal levels of health).
- **Independence** –Maintaining independence is the goal of CMIST.
- **Safety and Support** – Addresses individuals who may have lost the support of assistants, attendants, family, or friends; or may be unable to cope in new or strange environments (i.e., people with Alzheimer’s or individuals who experience stressors beyond their ability to cope, people who function adequately in a familiar environment but become disoriented in an unfamiliar environment, children who are unaccompanied, or people who are incarcerated).
- **Transportation** – Refers to needs related to travel (e.g., not having a vehicle or driver’s license, needing specialized transportation, or being unable to navigate existing transportation options).

Individuals with access and functional needs may:

- | | |
|---|--|
| <ul style="list-style-type: none"> • Have a disability • Require medical care • Have a temporary medical condition, like pregnancy or an injury • Not have access to transportation | <ul style="list-style-type: none"> • Live in institutional settings • Use prescription drugs to maintain health • Be children • Have limited English proficiency |
