HOURS:
Monday, Tuesday, Wednesday, Friday
8:00 a.m. to 4:00 p.m.
Thursday
8:00 a.m. to 8:00 p.m.

Dear Citizens,

I am pleased to present to you the annual report of the Tuscarawas County Health Department for 1998. I am sure if you take the time to review this report you will find the Tuscarawas County Health Department has been working hard to meet the needs of your community.

Many people don't realize it, but if you live and breathe in Tuscarawas County you are a recipient of General Health District services.

Public Health consists of working through an organized community effort to prevent disease, promote health and improve the quality of life for everyone. While a few aspects of public health deal with treatment of diseases or infirmity, the main thrust of our community Health Department is disease prevention and health promotion through appropriate personal and environmental health services.

Good public health services are aimed at helping each individual achieve the level of health which allows a person to reach their maximum potential. It is also clear that community health serves everyone - whether or not you have personally visited the Health Department. Preventative services exert a restraining effect on the cost of health care. You save money while you save your health.

This report is intended to inform you of your Health Department's many services and we hope that it will assist you in getting the most out of your Health Department. Feel free to call us about any of these services. After all, they are for everyone.

Linda J. Fanning, Executive Director
