Tuscarawas County Health Department Releases 2025 Annual Report

DOVER—Just in time for National Public Health Week (4/6-4/12/26), the Tuscarawas County Health Department (TCHD) recently released its 2025 Annual Report which highlights the department’s essential public health activities to prevent the spread of disease, promote healthy behaviors, and protect the Tuscarawas County environment. Noteworthy statistics from the report include 180 car or booster seats provided for area families; 1,002 food safety inspections completed; 2,190 medical appointments conducted; 5,617 birth and death certificates issued; 56 community education presentations; 9 tons of scrap tires collected; and \$2,927,314 in grant funds received.

In addition to details about each health department service bureau, the annual report lists the top five causes of death and includes numerous pictures and statistics regarding TCHD services and activities. The report also provides a summary of construction and renovation changes that were made to the building and grounds.

“In 2025, the department made significant strides forward despite extraordinary changes such as operating while our building was under construction for most of the year,” explained Katie Seward, MPH, MBA, Tuscarawas County Health Commissioner. “Our staff strengthened environmental health protections and collaborated with schools, healthcare providers, local organizations, and businesses to improve public health and safety for county residents.”

Seward added, “We are thankful to the community for their patience and understanding during our extensive construction project, and we look forward to hosting a community open house from 4 pm to 6 pm on May 19 to showcase our renovated building to everyone.”

To download a complete copy of TCHD’s 2025 Annual Report, visit www.tchdnow.org. A 2025 Community Impact Summary is also available for download at the website.
