ODH Call Center

1-833-4-ASK-ODH
Open Seven Days a Week
From 9 a.m. to 8 p.m.

Countries/Territories with 20,000 or more Cases of COVID-19*

Belgium (24,983)
Canada (20,765)
China (83,305)
France (85,531)
Germany (113,525)
Iran (66,220)
Italy (143,626)
Netherlands (21,762)
Spain (152,446)
Switzerland (23,495)
Turkey (42,282)
United Kingdom (65,081)

Situation Numbers*

Globally*

1,521,252 confirmed cases of COVID-19; 92,798 deaths (6.1%)

United States*

466,299 confirmed cases of COVID-19; 16,686 deaths (3.6%)

States with more than 5,000 confirmed cases: California (20,169); Colorado (6,202); Connecticut (9,784); Florida (16,826); Georgia (10,885); Illinois (16,424); Indiana (6,351); Louisiana (18,283); New Jersey (51,027); New York (161,807); Massachusetts (18,941); Maryland (6,185); Michigan (21,504); Pennsylvania (18,633); Texas (11,483); Washington (9,753);

Ohio

5,836 confirmed cases of COVID-19; 227 deaths (3.9%)

More detailed Ohio information can be found at

<https://coronavirus.ohio.gov/wps/portal/gov/covid-19/home/dashboard>

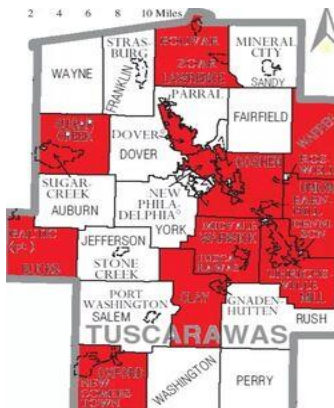

Tuscarawas County (as of 1 pm on 04/10/2020):

26 confirmed cases of COVID-19; 0 deaths

Age Range (in years): 7 - 63; Median Age (in years): 48;

Symptom onset range: February 25 – April 3; Current hospitalizations: 0

Fully Recovered: 12 out of 26

Townships (TWP) in red depict those with confirmed cases. Please note that all confirmed cases are quarantined until they are no longer able to pass on the virus. It is also important to note that the township in which the cases reside is NOT necessarily the township in which the virus was contracted. As of 5pm on April 6, 2020, there are positive COVID-19 cases in the following townships: Bucks; Clay; Dover; Lawrence; New Philadelphia; Goshen; Uhrichsville; Mill; Oxford; Sugarcreek; Warren; Warwick.

Please note: TCHD will not be sharing information about individuals under public health supervision or under voluntary quarantine for COVID-19 in our County. These individuals are not showing any symptoms and are not under investigation. As is our normal practice when we monitor situations of infectious disease in the community, information will be shared as is necessary to protect the public while respecting individual privacy. As with other diseases, we do not routinely share suspected case information until it is confirmed. The same will be done with COVID-19.

*As of April 09, 2020

NATIONAL
PUBLIC
HEALTH
WEEK

APRIL 6 – 12, 2020

The public health workers at the Tuscarawas County Health Department (TCHD) work year-round to prevent disease, promote health, and protect the environment in order to make our community a wonderful place to live, play, and work.

During the COVID-19 pandemic, the most challenging public health crisis of our lifetimes, TCHD would like to say a special thank you to all of its staff for continuing to serve the community with quality, compassion, and care as well as being tremendously brave and making the necessary sacrifices as we work to get through these uncertain times together. We also extend our thanks to the community that supports our efforts.

You are appreciated now and always!

“Public Health is something you never see until you need it.”
– Dr. Amy Acton

HOLIDAYS AND FAMILY GATHERINGS

This coming Sunday is a holiday celebrated by many in our community, and we know that many of you hope to celebrate and mark this special occasion. This year, please think creatively about your celebration in order to help control the spread of COVID-19.

According to the Stay At Home Order, we should not leave home for any activity that is not essential. Therefore, holiday gatherings can only be hosted virtually through the use of phones and the Internet. Members of the same household can celebrate together. Extended family and friends may want to organize a drive-by to wave and smile. Let us all have happy, healthy, and safe celebrations this year.

Cloth Face Masks Help Communities Stay Safe... They Don't Make You **INVINCIBLE!**

They can help stop the spread of **your** germs when you cough or sneeze. Cloth masks will **not** stop you from getting sick from someone else's germs through the air.

MIKE DEWINE
GOVERNOR OF OHIO

Ohio

Department
of Health

#StayHomeOhio

Hot topic: **When will things get back to normal?**

It's a complicated answer:

- **Bad news:**
 - We are still deep in the midst of a health crisis.
 - Unfortunately, the reality is that there are more people dying or becoming hospitalized each day.
 - Still not enough PPE available for what is needed.
 - If we let-up from the restrictions too soon, we can see a second, potentially more drastic surge.
- **Good news:** Ohio is in a much better place today than what was originally projected. Your efforts are truly making an impact, but we cannot let-up. Keep doing what you are doing, we **WILL** get through this together!

Tuscarawas County Health Department's Current Situational Goal:

Continue to provide timely and accurate information to the public and stakeholders while protecting patient confidentiality, and minimize the spread of the virus through contact tracing, notification, and tracking.
