STOP THE SPREAD OF GERMS
Help prevent the spread of respiratory diseases like COVID-19.

Stay home when you are sick, except to get medical care.

cdc.gov/coronavirus

About 1 in 3* adults used chemicals or disinfectants unsafely while trying to protect against COVID-19

Stay safe while using household cleaning and disinfectant products

Always read instructions

Wear protective gear

Do not mix chemicals

*According to a nationally representative survey of 502 U.S. adults—May 4, 2020

REOPENING OHIO & YOUR FAMILY'S HEALTH

As Ohio continues to reopen, we understand that more and more people are taking extra precautions in an effort to stay healthy and not contract COVID-19. We would like to remind you that chemicals such as household cleaners and disinfectants should **NEVER** be ingested, inhaled, or used to clean your body. Doing so can cause health consequences of its own and can even be fatal. **ALWAYS** make sure to follow the directions and warnings on the label of your cleaning/disinfecting product and call the Poison Emergency Hotline at 1-800-222-1222 if you think someone has swallowed something poisonous.

KEEPING YOUTH ATHLETES SAFE DURING THE COVID-19 PANDEMIC

Reduce physical closeness between players when possible
Minimize sharing of equipment or gear

- Limit travel outside of your area
- Identify small groups and keep them together
- Implement plans to space out spectators by 6ft and limit nonessential visitors
- See the risk level chart below for ideas on lowering the risk for youth athletes
- Create a COVID-19 game plan for your team by visiting <https://www.cdc.gov/coronavirus/2019-ncov/community/schools-childcare/youth-sports.html>

YOUTH SPORTS GAME PLAN

Reduce the Spread of COVID-19

LOWER RISK

HIGHER RISK

Skill-building drills at home

Team practice

Within-team competition

Competition with teams from your area

Full competition from different areas
