Fireworks celebrations for the 4th of July are permitted. Please remember that social distancing guidelines must be followed. We encourage everyone to enjoy a happy, safe, and healthy 4th of July.

## TCHD COVID-19 DRIVE-UP TESTING

Drive-up testing is provided Monday through Thursday, **by appointment only**, with or without a doctor's order. You can call (330) 343-5555 x100, Monday – Thursday 8:00 am to 4:00 pm, for an appointment. There is no up-front cost for testing. Medical insurance is not needed to get tested; however, health insurance will be billed for those who have insurance.

## VACATION TRAVEL GUIDANCE

Thinking of traveling out of your community for vacation? Consider asking these questions first:

- **Is COVID-19 spreading where you're going?\***  
You can get infected while traveling.
- **Is COVID-19 spreading in your community?**  
Even if you don't have symptoms, you can spread COVID-19 to others while traveling.
- **Will you or those you are traveling with be within 6 feet of others during or after your trip?**  
Being within 6 feet of others increases your chances of getting infected and infecting others.
- **Are you or those you are traveling with more likely to get very ill from COVID-19?**  
Older adults and people of any age who have a serious underlying medical condition are at higher risk for severe illness from COVID-19.
- **Do you live with someone who is more likely to get very ill from COVID-19?**  
If you get infected while traveling you can spread COVID-19 to loved ones when you return, even if you don't have symptoms.
- **Does the state or local government where you live or at your destination require you to stay home for 14 days after traveling?**  
Some state and local governments may require people who have recently traveled to stay home for 14 days.
- **If you get sick with COVID-19, will you have to miss work or school?**  
People with COVID-19 disease need to stay home until they are no longer considered infectious.
